Dear Josh

10/12/72

I'm afraid I can't tell you when Harriet Taylor first came in contact with Avery but I'll try to find out. I believe there's a copy of her unpublished dissertation on file - with some notes in the back.

Danson came to discuss the transformation work in a seminar at Schermerhorn - also

Ledy, Hattie Alexander & I believe Harriet first met Holt Kiss at Cold Spring Harbor. I'll keep it in mind & let you know. In the

meantime, perhaps Box  
has Harriet's correspondence  
etc. With best wishes  
Yours  
Henry
